---

Shareholders ratified the Company’s Stock Option Plan. The resolution was approved with 32,867,970 votes (99.36%) in favour and 210,772 votes (0.63%) against.

### **ABOUT CONQUEST**

---

Conquest Resources Limited, incorporated in 1945, is a mineral exploration company that is exploring for base metals and gold on mineral properties in Ontario and Finland.

Conquest recently acquired the Valimaki Gold Project in southwestern Finland, a district-scale gold exploration property with extensive historical exploration and drilling. Valimaki is situated within the Svecofennian geological domain between two major regional shear zones and hosts orogenic-style gold mineralization associated with quartz veining and arsenopyrite-bearing amphibolite-grade volcanic, sedimentary, and intrusive rocks.

Conquest has completed a high-resolution drone magnetic survey on the Valimaki Project and is currently geologically mapping the property in detail to establish drill targets. Targets will be drilled upon receipt of permits.

Conquest holds a 100% interest in the Belfast-TeckMag Project, located in the Temagami Mining Camp at Emerald Lake, Ontario, which is believed to have exceptional exploration upside for magmatic sulphide deposits (Cu-Ni-PGE), VMS, IOCG, Iron formation hosted Au and Paleo-placer Au.

The Belfast-TeckMag Project, evolved from the Golden Rose Project, which was initially acquired in December 2017, and significantly augmented through the acquisition of Canadian Continental Exploration Corp. ("CCEC") in 2020 and subsequent additional claim staking and purchases in its adjacent Belfast Copper Property and TeckMag Property.

Conquest now controls over 300 square kilometers of underexplored territory in the Temagami Mining Camp, including the past producing Golden Rose Mine at Emerald Lake.

Conquest also holds a 100% interest in the Alexander Gold Property located immediately east of the Red Lake and Campbell mines in the heart of the Red Lake Gold Camp along the important "Mine Trend" regional structure. Conquest's property is almost entirely surrounded by Evolution Mining landholdings.

In addition, the Company holds interests in the Smith Lake Gold Property near Missinaibi, Ontario, and the King Bay Gold Property at Sturgeon Lake, in northwestern Ontario, and Lake Nipigon Basin Property.

**Forward-looking statements:** *This news release contains certain "forward-looking statements" within the meaning of applicable Canadian securities legislation. Forward-looking statements include, but are not limited to, statements regarding the Company's expectations, plans, exploration activities, proposed expenditures, potential mineralization, and the timing and content of upcoming work programs. Forward-looking information can often be identified by words such as "anticipates", "believes", "expects", "intends", "plans", "estimates", "may", "will", "should", and similar expressions suggesting future outcomes or events. These statements are based on current expectations and assumptions that involve a number of known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated in such statements. Such risks include but are not limited to: exploration results not being indicative of future results; variations in mineral grade or recovery rates; delays or failures in obtaining necessary permits; changes in commodity prices, capital market conditions, and general economic conditions. Although the Company believes the assumptions and expectations reflected in such forward-looking statements are reasonable, no assurance can be given that these expectations will prove to be correct. Readers are cautioned not to place undue reliance on these forward-looking statements. The Company undertakes no obligation to update or revise forward-looking information, except as required by law. Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*
