CONQUEST RESOURCES LIMITED
Notes to the Consolidated Financial Statements
For the six month periods ended June 30, 2016 and 2015

1. NATURE OF OPERATIONS AND GOING CONCERN

Conquest Resources Limited (the "Company") has interests in exploration and evaluation properties located in northern Ontario. Substantially all of the Company's efforts are devoted to financing and developing these properties. The Company's head office is located at 55 University Ave., Suite 1805, Toronto, Ontario, M5J 2H5.

There has been no determination whether the Company's interests in its properties contain ore reserves which are economically recoverable. The Company's exploration operations are subject to government legislation, policies and controls relating to prospecting, development, production, environmental protection, mining taxes and labour standards. In order for the Company to carry out its exploration and mining activities, the Company is required to hold certain permits. There is no assurance that the Company's existing permits will be renewed or that new permits that have been applied for will be granted. Major expenditures are required to locate and establish reserves, to develop metallurgical processes and to construct mining and processing facilities at a particular site. The Company's continued existence is dependent upon discovery of economically recoverable reserves, the ability to obtain necessary financing to complete development and future profitable production or proceeds from disposition. Although the Company has taken steps to verify title to properties in which it has an interest in accordance with industry standards for the current stage of development of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements, social licensing requirements, unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory requirements. The Company's properties may also be subject to increases in taxes and royalties, renegotiating contracts and political uncertainty.

These consolidated financial statements are prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Several conditions discussed below create a material uncertainty and significant doubt about the Company's ability to continue as a going concern.

At June 30, 2016, the Company had limited working capital, had not achieved profitable operations, had an accumulated deficit since inception and expects to incur further losses in the development of its business. The Company has relied on equity financing to fund its working capital requirements. The Company will need to generate additional financial resources in order to fund its planned exploration programs. There is a risk that additional financing will not be available to the Company on a timely basis or on acceptable terms. There are no assurances that the Company will continue to obtain additional financial resources and/or achieve positive cash flows or profitability. If the Company is unable to obtain adequate additional financing, the Company will be required to curtail operations and exploration activities.

2. CHANGE IN ACCOUNTING POLICY

During the year ended December 31, 2015, in accordance to IFRS 6, "Exploration for and evaluation of mineral resources", the Company changed its accounting policy of capitalizing exploration and evaluation expenditures.

Under the new policy, all costs associated with the exploration and evaluation of properties, including acquired mineral use rights for mineral properties held by the Company, the amount of consideration paid (in cash or share value) for mineral use rights and the amounts spent for exploration and evaluation expenditures are expensed until it has been established that a mineral property is commercially viable and a mine development decision has been made by the Company.

Upon establishment of a NI 43-101 compliant resource, and where the directors consider that the resource is economic, the Company capitalises any further evaluation expenditure under Exploration and evaluation assets.

The statement of operations and comprehensive loss, and statement of cash flows have been restated to reflect adjustments made as a result of this change in accounting policy.

CONQUEST RESOURCES LIMITED
Notes to the Consolidated Financial Statements
For the six month periods ended June 30, 2016 and 2015

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of Compliance

These condensed interim consolidated financial statements of the Company were prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"). The accounting policies set out below have been applied consistently to all periods presented unless otherwise noted below.

These condensed interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2015 prepared in accordance with IFRS.

These condensed interim financial statements have been prepared on a historical cost basis except for marketable securities which are measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except cash flow information. These condensed interim financial statements are expressed in Canadian Dollars.

The standards and interpretations within IFRS are subject to change and accordingly, the accounting policies for the annual report that are relevant to these condensed interim financial statements will be finalized only when the annual IFRS financial statements are prepared for the year ending December 31, 2016.

(b) Accounting Changes

The Company did not adopt any new International Financial Reporting Standards (IFRSs) or Interpretations during the period that had a material impact on the Company's financial statements.

IFRS 9	Financial Instruments
IFRS 10 & IAS 28	Consolidated Financial Statements
IAS 1	Presentation of Financial Statements
IAS 12	Income taxes
IAS 38 & IAS 16	Intangible Assets

The Company has not yet determined the impact of these amendments on its financial statements.

4. RELATED PARTY TRANSACTIONS

Transactions between the Company and its subsidiaries, which are related parties, have been eliminated on consolidation and are not disclosed.

No fees were paid by the Company to directors for their services as directors of the Company in the quarters ended June 30, 2016 or June 30, 2015.

For the six month period ended June 30, 2016, the Company accrued or made payments in the amount of \$17,658 (2015 - \$3,006) to related parties.

Included in accounts payable and accrued liabilities at June 30, 2016 is \$29,686 due to related parties. See Note 7. Such amounts are due on demand, unsecured and non-interest bearing.

CONQUEST RESOURCES LIMITED
Notes to the Consolidated Financial Statements
For the six month periods ended June 30, 2016 and 2015

5. ACCOUNTS RECEIVABLE

	June 30, 2016 \$	December 31, 2015 \$
Receivable sales taxes	3,759	10,760
Prepaid expenses	4,268	4,134
	<u>8,027</u>	<u>14,894</u>

6. MINERAL PROPERTIES EXPLORATION AND EVALUATION EXPENDITURES

In accordance with the change in accounting policy (Note 3), all costs associated with the exploration and evaluation of properties are expensed until it has been established that a mineral property is commercially viable and a mine development decision has been made by the Company on its mineral properties.

The following table shows the Company's cumulative exploration and evaluation expenditures:

	June 30, 2016 \$	Additions \$	December 31, 2015 \$	Additions \$	December 31, 2014 \$
Alexander	6,238,223	2,373	6,235,850	9,357	6,226,493
Smith Lake	1,198,967	11,339	1,187,628	67,527	1,120,101
King Bay	992,272	3,669	988,603	1,113	987,490
Total	<u>8,429,462</u>	<u>17,381</u>	<u>8,412,081</u>	<u>77,997</u>	<u>8,334,084</u>

Alexander Property, Red Lake, Ontario

The Company has earned a 100% interest in the Alexander Property, a group of patented mining claims situated in Central Balmer Township, Red Lake Mining District, Ontario, subject to a 2% net smelter return ("NSR") in favour of Energold Minerals Inc. ("Energold"). Energold is controlled by a director of the Company.

Smith Lake Property, Missinabie, Ontario

The Company holds six (6) patented claims and twenty (20) unpatented mining claims in the Missinabie area of Northern Ontario, in Leeson, Stover and Rennie Townships, Sault Ste. Marie Mining Division, located approximately 100 kilometres northeast of Wawa.

King Bay Property, Sturgeon Falls, Ontario

The King Bay property comprises a combination of Mining Leases and Mineral Claims.

CONQUEST RESOURCES LIMITED
Notes to the Consolidated Financial Statements
For the six month periods ended June 30, 2016 and 2015

7. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	June 30, 2016 \$	December 31, 2015 \$
Trade payables	9,610	-
Payable to related parties (Note 4)	29,686	48,445
Accrued liabilities	12,000	32,480
Accounts payable and accrued liabilities	<u>51,296</u>	<u>80,925</u>

8. CAPITAL STOCK

Common shares

	Common shares (000's)	Amount \$
Authorized		
Unlimited common shares, with no par value		
Issued and fully paid		
Balance at December 31, 2015 and June 30, 2016	<u>95,478</u>	<u>14,189,057</u>

9. STOCK OPTIONS

The board of directors has approved a stock option plan for directors, officers, management, employees and other persons who perform ongoing services for the Company or any of its subsidiaries. The purpose of the plan is to attract, retain and motivate these parties by providing them with the opportunity, through stock options, to acquire a proprietary interest in the Company and to benefit from its growth.

The maximum number of common shares reserved for issuance upon the exercise of options is not to exceed ten percent of the total number of common shares outstanding immediately prior to such an issuance. The maximum number of common shares reserved for issuance to any one participant upon the exercise of options is not to exceed five percent of the total number of common shares outstanding immediately prior to such an issuance. The options are non-assignable and may be granted for a term not exceeding ten years. The exercise price of the options is fixed by the board of directors at the market price of the shares at the time of grant, subject to all applicable regulatory requirements.

On May 21, 2014, the Company granted 5,800,000 stock options at an exercisable price of \$0.05 per share, with a five year term expiring May 20, 2019, all vesting over a period of two years, to directors, officers and service providers. Directors and officers were awarded 5,400,000 options. The grant date fair value of these options was estimated at \$67,111.

The following table summarizes the stock options outstanding and exercisable as at June 30, 2016:

	Number of Options (000's)	Weighted Average Exercise Price \$
Balance, December 31, 2015	7,000	0.06
Expired	(1,200)	0.10
Balance, June 30, 2016	<u>5,800</u>	<u>0.05</u>

The weighted average remaining contractual life of options outstanding at June 30, 2016 is 2.9 years.

CONQUEST RESOURCES LIMITED
Notes to the Consolidated Financial Statements
For the six month periods ended June 30, 2016 and 2015

10. SHARE-BASED PAYMENT RESERVE

Share-based payment reserve transactions relate to the Company's stock options. Share-based payment reserve transactions for the period ended June 30, 2016 were as follows:

Balance, December 31, 2015	\$ 151,000
Expired	<u>(84,000)</u>
Balance, June 30, 2016	<u><u>67,000</u></u>

11. COMMITMENTS AND CONTINGENCIES

The Company's mining and exploration activities are subject to various federal and provincial laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

11. FINANCIAL INSTRUMENTS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no changes in the risks, objectives, policies and procedures.

Fair value

The carrying amounts for cash, marketable securities, amounts receivable and accounts payable and accrued liabilities on the consolidated statements of financial position approximate fair value because of the limited term of these instruments. The marketable securities are stated at the quoted market value.

Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by major Canadian banks. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Credit risk

Credit risk is the risk that a client or vendor will be unable to pay or receive any amounts owed or owing by the Company. Management's assessment of the Company's risk is low as it is primarily attributable to funds held in Canadian banks.

Commodity price risk

The ability of the Company to develop its properties and the future profitability of the Company is directly related to the market price of certain minerals, particularly gold.

Fair Value Hierarchy and Liquidity Risk Disclosure

The fair value hierarchy has the following levels: (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1); (b) inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (Level 2); and (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3). At June 30, 2016, the Company had no financial instruments carried at fair value.

11. FINANCIAL INSTRUMENTS (continued)

Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. At June 30, 2016, the Company had cash of \$124,446 (December 31, 2015 - \$225,508) to settle accounts payable and accrued liabilities of \$51,296 (December 31, 2015 - \$80,915). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Market Risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate because of changes in market prices. The Company is exposed to market risk with respect to its marketable securities and unfavourable market conditions could result in dispositions of marketable securities at less than favorable prices.

Price Volatility of Publicly Traded Securities

Securities of exploration companies have experienced substantial volatility in the past, often based on factors unrelated to the financial performance or prospects of the companies involved. These factors include macroeconomic developments in North America and globally, and market perceptions of the relative attractiveness of particular industries. The Company's share price is also likely to be significantly affected by short-term changes in metal prices or in the Company's financial condition or results of operations as reflected in quarterly earnings reports.

Capital Risk

The Company manages its capital to ensure that there are adequate capital resources for the Company to maintain and explore its exploration assets. The capital structure of the Company consists of shareholders' equity.

Sensitivity Analysis

The Company has designated its marketable securities as fair value through profit or loss, which are measured at fair value. Cash and amounts receivable are classified as loans and receivables, which are measured at amortized costs. Accounts payable and accrued liabilities are classified as other financial liabilities, which are measured at amortized cost.

Cash is invested in investment-grade short-term deposit certificates. Based on management's knowledge and experience in the financial markets, sensitivity to a plus or minus 1% change in rates, based on the current balance of cash at June 30, 2016, would affect the net income by plus or minus \$nil during a one-year period.

As at June 30, 2016, the Company did not hold any material balances in foreign currencies that would give rise to exposure to foreign exchange risk.

12. CAPITAL MANAGEMENT

The capital of the Company consists primarily of its shareholders' equity.

The Company's objective when managing capital is to maintain adequate levels of funding to support the acquisition, development and exploration of mineral properties and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financing. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future. All equity financings require the approval of the Board of Directors.

The Company invests all capital that is surplus to its immediate operational needs in short term, highly-liquid financial instruments, such as short term guaranteed investment certificates, held with a major Canadian financial institution.

12. CAPITAL MANAGEMENT (Continued)

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes to the Company's approach to capital management during the six month period ended June 30, 2016. Neither the Company nor its subsidiaries are subject to externally imposed capital requirements.
