1. NATURE OF OPERATIONS

Conquest Resources Limited (the “Company” or “Conquest”) has interests in exploration and evaluation properties located in northern Ontario. Substantially all of the Company’s efforts are devoted to exploring and developing these properties. Conquest is a public company listed on the TSX Venture Exchange (“TSX-V”) and trades under the symbol “CQR.V”. The Company’s head office is located at 55 University Ave, Suite 1805, Toronto, Ontario, M5J 2H7.

These condensed interim consolidated financial statements are prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for the next twelve months at the minimum.

At March 31, 2022, the Company had limited working capital, had not achieved profitable operations, had an accumulated deficit since inception and expects to incur further losses in the development of its business. The Company has relied on equity financing to fund its working capital requirements. The Company will need to generate additional financial resources in order to fund its planned exploration programs.

The Company’s operations could be significantly adversely affected by the effects of the global spread of the contagious coronavirus, causing the outbreak of COVID-19 respiratory disease which was declared a pandemic by the World Health Organization on March 11, 2020. The Company cannot predict the impact the COVID-19 pandemic will have on its operations, including uncertainties relating to the duration of the outbreak, the impact on schedules and timelines for planned operations or exploration programs and the length of travel and quarantine restrictions imposed by governmental authorities. In addition, this prolonged widespread health crisis has adversely affected the economies and financial markets of many countries, resulting in an economic downturn that could further affect the Company’s operations and ability to finance its operations. The COVID-19 pandemic has not made a material impact on the Company’s operations as at March 31, 2022. The Company continues to monitor the impact the COVID-19 pandemic may have on its operations.

2. BASIS OF PREPARATION

These condensed interim consolidated financial statements of the Company and its subsidiaries were prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”). The accounting policies set out below were consistently applied to all periods presented, unless otherwise noted.

These condensed interim consolidated financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2021 prepared in accordance with IFRS.

These consolidated financial statements have been prepared on a historical cost basis except for marketable securities which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except cash flow information.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of consolidation

The condensed interim consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the three-month period are included in the consolidated statement of operations from the effective date of acquisition or up to the effective date of disposal or wind-up, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by the Company. All material intra-Company transactions, balances, income and expenses are eliminated on consolidation.

Effective January 31, 2021, the Company’s two wholly owned subsidiaries Northern Nickel Mining Inc. and Eaglerock Mineral Limited were amalgamated into Conquest. Consequently, these condensed interim consolidated financial statements include the results of the two subsidiaries up to and including January 30, 2021.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of consolidation (continued)

The standards and interpretations within IFRS are subject to change and accordingly, the accounting policies that are relevant to the Company will be finalized only when the annual IFRS financial statements are prepared for the year ending December 31, 2022. The accounting policies chosen by the Company have been applied consistently to all periods presented except as disclosed otherwise.

(b) Recent accounting pronouncement

Classification of Liabilities as Current or Non-current (Amendments to IAS 1) In January 2020, the IASB issued amendments to IAS 1, "Presentation of Financial Statements" to clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and is unaffected by expectations about whether or not an entity will exercise their right to defer settlement of a liability. The amendments further clarify requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments. These amendments are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted. The adoption of these amendments is not expected to have a significant impact on the consolidated financial statements.

Belfast-TeckMag, Emerald Lake, Ontario

The Belfast-TeckMag Project is comprised of multiple properties evolved from the Company's original Golden Rose Property. In 2017, the Company acquired certain mining leases, staked mining claims and adjacent claim blocks, collectively known as the Golden Rose Property, situated in Afton and Scholes townships at Emerald Lake approximately 65 km northeast of Sudbury, Ontario. A portion of the Golden Rose property comprising unpatented staked claims is subject to a 1.5% net smelter return ("NSR") in favour of Osisko Gold Royalties Ltd., and the patented claims and leases are subject to a 2% NSR in favour of EnerMark Inc.

In October 2020, through the acquisition of Canadian Continental Exploration Corp. ("CCEC"), the Company acquired the TeckMag Property comprised of a large package of mining claims which surrounds the Golden Rose Property .

In November 2020, the Company acquired the Belfast Property by staking and acquisition of certain mining claim cells adjacent to the TeckMag Property. In addition, certain mining claim cells were purchased in the Belfast area from a third party for \$10,000 and the issuance of 100,000 shares of Conquest valued at \$18,000 at the date of their issuance. On November 2, 2020, the Board of Directors awarded an incentive bonus to the initiators of the Belfast Property in the form of the grant of a total NSR of 1.5 % on the Belfast Project to certain management of the Company.

5. MINERAL PROPERTIES – EXPLORATION AND EVALUATION EXPENDITURES (CONTINUED)

Belfast-TeckMag, Emerald Lake, Ontario (continued)

In March 2021, Conquest acquired the JPC property in Clement Township, Ontario from a private individual. The Company paid \$13,000 cash and issued 250,000 common shares for a 100% interest in the JPC property, which is located to the south east of the Golden Rose Property, subject to a 1% NSR. Conquest may purchase half of the NSR royalty for \$500,000 at any time and retains a Right of First Refusal on the balance of the royalty.

In March 2021, pursuant to a purchase and sale agreement dated March 12, 2021 with Teck Resources Limited (“Teck”), Conquest acquired a 100% interest in the DGC Ni-Cu-PGE property located in Afton Township, Ontario by issuing 1,800,000 common shares to Teck subject to a 2% NSR retained by Teck.

Alexander Property, Red Lake, Ontario

The Company has earned a 100% interest in the Alexander Property, a group of patented mining claims situated in Balmer Township, Red Lake Mining District, Ontario, subject to a 2% NSR in favour of Energold Minerals Inc. (“Energold”). Energold is controlled by a director of the Company.

Smith Lake Property, Missinabie, Ontario

The Company holds certain patented mining leases and mining claims in the Missinabie area of Northern Ontario, in Leeson, Stover and Rennie Townships, Sault Ste. Marie Mining Division.

King Bay Property, Sturgeon Lake, Ontario

The King Bay property comprises a mining Lease and certain patented mining claims at Sturgeon Lake, in northwestern Ontario.

LNB Property, Lake Nipigon Basin, Ontario

On November 11, 2021, Conquest entered into an agreement to purchase 100% of the LNB property that is considered to be prospective for uranium mineralization associated with veins and faults at or near the Archean-Proterozoic unconformity, Ni-Cu-PGE mineralization associated with Proterozoic rift mafic intrusive rocks located at the unconformity south of Black Sturgeon Lake in the Lake Nipigon Basin (the “LNB” property).

Under the terms of the agreement, Conquest can earn 100% interest in the LNB property by issuing 800,000 common shares over the course of four years, subject to a 2% NSR with a buy-back of 1% at any time for \$1,000,000. Conquest issued an initial 200,000 shares to the vendor of the property in November 2021. The remaining 600,000 shares are to be issued in three tranches, i.e., 200,000 common shares issued on each of the second, third and fourth anniversaries of the agreement. Conquest has committed to spending \$400,000 in exploration costs on the LNB property.

6. CAPITAL STOCK

The Company’s authorized share capital consists of an unlimited number of common shares. There were no changes to the Company’s capital stock during the three months ended March 31, 2022.

On March 29, 2021, Conquest issued 1,800,000 common shares to Teck Resources Limited pursuant to a purchase and sales agreement to acquire a 100% interest in the DGC Ni-Cu-PGE property. In addition, on the same date, Conquest issued 250,000 common shares to acquire the JPC property in a separate transaction. The DGC Ni-Cu-PGE property and JPC property comprised parts of the Company’s Belfast TeckMag Project.

The following table summarizes the capital stock transactions for the three-month period ended March 31, 2022 and year ended December 31, 2021:

All warrants outstanding at March 31, 2022 expire on October 14, 2022.

8. STOCK OPTIONS

The board of directors has approved a stock option plan for directors, officers, management, employees and other persons who perform ongoing services for the Company or any of its subsidiaries. The purpose of the plan is to attract, retain and motivate these parties by providing them with the opportunity, through stock options, to acquire a proprietary interest in the Company and to benefit from its growth.

The maximum number of common shares reserved for issuance upon the exercise of options is not to exceed ten percent of the total number of common shares outstanding immediately prior to such an issuance. The maximum number of common shares reserved for issuance to any one participant upon the exercise of options is not to exceed five percent of the total number of common shares outstanding immediately prior to such an issuance. The options are non-assignable and may be granted for a term not exceeding ten years. The exercise price of the options is fixed by the board of directors at the market price of the shares at the time of grant, subject to all applicable regulatory requirements.

There were no options granted during the three months ended March 31, 2022. The total share-based compensation cost arising from vested options during the three months ended March 31, 2022 was \$93,896 (2021 - \$155,468).

On February 9, 2021, the Company granted 4,175,000 stock options at an exercisable price of \$0.20 per share, for a term of five years, all vesting quarterly over a period of two years commencing on April 1, 2021, to directors, officers and consultants. Amongst the total stock options granted, 3,400,000 were awarded to directors and officers of the Company. The total grant date fair value of the options was estimated at \$662,961. The estimated fair value was calculated using the Black-Scholes option pricing model with the following assumptions: share price of \$0.16, expected dividend yield of 0%; expected volatility of 242%; risk free interest rate of 0.49% and expected life of 5 years.

Also on February 9, 2021, the Company granted 100,000 stock options to a service provider at an exercisable price of \$0.20 per share with an expiry date of December 31, 2021, with half of the options vesting immediately and the other half vesting on July 1, 2021. The total grant date fair value of the options was estimated at \$8,966. The estimated fair value was calculated using the Black-Scholes option pricing model with the following assumptions: share price of \$0.16, expected dividend yield of 0%; expected volatility of 180%; risk free interest rate of 0.12% and expected life of 0.89 year. The 50,000 options vesting on July 1, 2021 were cancelled in May 2021 following the Company's termination of the optionee's service. The fair value related to the cancelled options were reversed at the time of their cancellation.

On March 1, 2021, the Company granted 500,000 stock options to a consultant at an exercisable price of \$0.20 per share for a term of one year, all vesting immediately. The total grant date fair value of the options was estimated at \$35,363. The estimated fair value was calculated using the Black-Scholes option pricing model with the following assumptions: share price of \$0.13, expected dividend yield of 0%; expected volatility of 178%; risk free interest rate of 0.19% and expected life of 1 year. These options expired unexercised on March 1, 2022.

On August 2, 2021, a total of 2,900,000 stock options previously granted to former directors, officers, and consultants of CCEC in August 2020 expired unexercised. On August 19, 2021, the Company granted 1,800,000 stock options to certain former directors, officers and consultants of CCEC at an exercise price of \$0.15 per share, for a term of five years, all vesting quarterly over a period of two years commencing on September 1, 2021. The total grant date fair value of the options was estimated at \$159,797. The estimated fair value was calculated using the Black-Scholes option pricing model with the following assumptions: share price of \$0.09, expected dividend yield of 0%; expected volatility of 228%; risk free interest rate of 0.81% and expected life of 5 years.

The options outstanding have a weighted average remaining life of 3.4 years at a weighted average exercise price of \$0.16 at March 31, 2022.

9. RELATED PARTY TRANSACTIONS

Other than the grant of stock options, no fees were paid by the Company to directors for their services as directors of the Company in the three months ended March 31, 2022 and 2021.

During the three-month period ended March 31, 2022, a total expense of \$64,529 (2021 - \$83,850) were charged by related parties, including \$45,000 (2021 - \$45,000) by Tom J. Obradovich, Director, President and Chief Executive Officer of the Company for management fees; \$6,000 (2021 - \$6,000) by Energold Minerals Inc., an affiliate of John Kearney, the Chairman of the Company, for executive consulting services; \$11,200 (2021 - \$22,170) by Intega Advisors, a company controlled by Tong Yin, Chief Financial Officer of the Company for professional services; \$2,329 (2021 - \$10,680) by Janice Malmholt, Secretary of the Company, for corporate secretary services; and \$3,000 (2021 - \$3,000) for rent by Buchans Resources Limited, a company with common directors.

Included in accounts payable and accrued liabilities at March 31, 2022 is \$26,382 (December 31, 2021 - \$27,593) due to related parties. Such amounts are due on demand, unsecured and non-interest bearing.

10. COMMITMENTS AND CONTINGENCIES

The Company's exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

11. FINANCIAL INSTRUMENTS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no changes in the risks, objectives, policies and procedures.

Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by major Canadian banks. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts owing to the Company. Management's assessment of the Company's risk is low as it is primarily attributable to funds held in Canadian banks.

Commodity price risk

The ability of the Company to develop its properties and the future profitability of the Company is directly related to the market price of certain minerals, particularly gold.

Fair value hierarchy and liquidity risk disclosure

The fair value hierarchy has the following levels: (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1); (b) inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (Level 2); and (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

The carrying amounts for cash and cash equivalents, amounts receivable and accounts payable and accrued liabilities on the consolidated statements of financial position approximate fair value because of the limited term of these instruments.

Liquidity risk

Liquidity risk encompasses the risk that the Company cannot meet its financial obligations as they come due. At March 31, 2022, the Company had cash and cash equivalents of \$1,532,615 (December 31, 2021 - \$1,949,588) to settle accounts payable and accrued liabilities of \$96,879 (December 31, 2021 - \$335,317), including \$26,382 (December 31, 2021 - \$27,593) liabilities due to related parties. All the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company has relied on equity financing to fund its working capital requirement, and notwithstanding its working capital deficit, the Company believes it will be able to settle its current obligations from equity financings. There is a risk that additional financing will not be available to the Company on a timely basis or on acceptable terms.

Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate because of changes in market prices. The Company does not have significant exposure to market risk as at March 31, 2022.

Price volatility of publicly traded securities

Securities of exploration companies have experienced substantial volatility in the past, often based on factors unrelated to the financial performance or prospects of the companies involved. These factors include macroeconomic developments in North America and globally, and market perceptions of the relative attractiveness of particular industries. The Company's share price is also likely to be significantly affected by short-term changes in metal prices or in the Company's financial condition or results of operations.

Capital risk

The Company manages its capital to ensure that there are adequate capital resources for the Company to maintain and explore its exploration assets. The capital structure of the Company consists of capital stock for common shares and reserves for warrants and stock options.

Sensitivity analysis

Cash is invested in investment-grade short-term deposit certificates. Given management's knowledge and experience in the financial markets, sensitivity to a plus or minus 1% change in interest rates, based on the current balance of cash at March 31, 2022, would affect the net loss by plus or minus \$13,500 during a one-year period.

As at March 31, 2022, the Company did not hold any material balances in foreign currencies that would give rise to exposure to foreign exchange risk.

12. CAPITAL MANAGEMENT

The capital of the Company consists primarily of its shareholders' equity.

The Company's objective when managing capital is to maintain adequate levels of funding to support the acquisition, development and exploration of mineral properties and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financing. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future. All equity financings require the approval of the Board of Directors.

The Company invests all capital that is surplus to its immediate operational needs in short term, highly liquid financial instruments, such as short term guaranteed investment certificates, held with a major Canadian financial institution. At March 31, 2022, the Company has \$1,350,000 (December 31, 2021 - \$1,800,000) in guaranteed investment certificates with a major Canadian financial institution.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company's capital management objectives, policies and processes have remained unchanged during the three-month period ended March 31, 2022. The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than Policy 2.5 of the TSX-V which requires adequate working capital or financial resources of the greater of (i) CDN\$50,000 and (ii) an amount required to maintain operations and cover general and administrative expenses for a period of 6 months.

13. SUBSEQUENT EVENT

On May 1, 2022, Conquest entered into an Ontario Transfer Payment Agreement with the Minister of Northern Development, Mines, Natural Resources and Forestry (the "Funding Agreement"). Under the Funding Agreement, the province of Ontario will contribute up to a maximum of \$200,000 towards the exploration costs incurred by Conquest, on its drilling programs at the Belfast TeckMag Project, during the period from April 1, 2022 to February 15, 2023. The funds will be made available to the Company subject to its satisfying certain project reporting requirements pursuant to the Funding Agreement.
