ABOUT CONQUEST

Conquest Resources Limited, incorporated in 1945, is a mineral exploration company that is exploring for base metals and gold on mineral properties in Ontario.

Conquest holds a 100% interest in the Belfast-TeckMag Project, located in the Temagami Mining Camp at Emerald Lake, Ontario, which is believed to have exceptional exploration upside for magmatic sulphide deposits (Cu-Ni-PGE), volcanic massive sulphides, IOCG, iron formation hosted Au and Paleo-placer Au.

The Belfast-TeckMag Project is the Company's flagship property, evolved from the Golden Rose Project, which was initially acquired in December 2017, and significantly augmented through the acquisition of Canadian Continental Exploration Corp. ("CCEC") in 2020 and subsequent additional claim staking and purchases in its adjacent Belfast Copper Project and TeckMag Property.

Conquest now controls over 300 square kilometres of underexplored territory in the Temagami Mining Camp, including the past producing Golden Rose Mine at Emerald Lake.

Conquest also holds a 100% interest in the Alexander Gold Property located immediately east of the Red Lake and Campbell mines in the heart of the Red Lake Gold Camp along the important "Mine Trend" regional structure. Conquest's property is almost entirely surrounded by Evolution Mining landholdings.

In addition, the Company holds interests in the Smith Lake Gold Property and Lake Nipigon Basin Property.
